

“Well begun is half done.”
Aristotle

What makes our program unique?

Early classroom training and opportunities at Heritage School accomplish much more than preparation for the rigors of classical academics

ahead. This tender age is seminal to spiritual sensitivity, moral intuition and aspiration for excellence. Through exposure to the wonders of creation, the truth of scripture, the best of the humanities and much loving interpersonal mentoring our teachers seek to set each child’s palate for a lifetime of learning and Christian stewardship. When schooling is presented in developmentally appropriate and playful ways, the joys and wonder of childhood are amplified, not sacrificed. For indeed, “...the kingdom of heaven belongs to such as these.” (Matt. 19:14)

What do the Pre-k and Kindergarten Programs look like?

Both programs at Heritage School prepare children to enter first grade by providing a classical approach to early academics while striving to center the students’ hearts on Christ. Bible lessons, Bible memory work, character building activities, accompanied by foundational lessons in phonics, math, handwriting, science, and social studies provide the structure for daily learning.

Key to the success of the pre-k and kindergarten programs is the daily read-aloud time during which students are exposed to a feast of classic children’s literature. Students are taught in a classroom setting which is rich in print and literature. Reading in our early programs utilizes developmentally appropriate lessons that are taught in an exciting and meaningful way. This approach encourages students to exercise skills in prediction and narration, as well as providing a model for fluent reading. Students actively learn through hands-on experiences and engaging lessons.

Pre-K and Kinder Enrichment:

- Art, music, and P.E. classes
- Field trips (pumpkin patch, plays, symphonies, & more)
- Nature studies
- Spanish lessons
- Play and imagination time
- Shakespeare Day
